# *Centralization - Goals*

- Provide a single system with every feature you have today with CAIS
  - Security
  - Reliability
  - Control
  - Flexibility
  - Data access via ODBC

# *Centralization - Advantages*

- <u>Centralized Database Support 1 vs. 14</u>
  - \+ AHE Backup & Recovery
  - \+ Admin+Update burden off sites
  - \+ New sites added with no additional costs

- Potential Future Capabilities
  - \+ Automated Electronic interface CAIS ←→ FIMS
  - \+ Headquarters View

# *Centralization*

## Site Requirements

1. Cyber Security Issues
   - Network Fire Wall

2. Process Downtime
   - 1 day goal
   - May require more than 1 iteration

3. Provide Current Database

# *FY 2004 Schedule*

## Centralization Status

- Project in testing mode

- On schedule for mid-November field pilot test

- Pilot testing completed end of December 2003

- Complete Centralization roll out by May 2004
